

Leadership Institute For Entrepreneurs

Founded in 2016 and officially formed in 2017, the Leadership Institute for Entrepreneurs (LIFE), was birthed out of a desire to equip growth-oriented entrepreneurs with the tools they need to de-risk the startup, grow their business, and scale successfully.

After 25+ years of working on various initiatives, projects, and startups around the world, LIFE Founder, Michael McCausland learned a thousand ways to *not* help people. That giving people free things led to greater dependency, took away people's dignity, and hindered efforts towards economic growth and sustainability.

150+ Countries | 3,000 Startups | 75% Sustainability | 4 Viral Networks

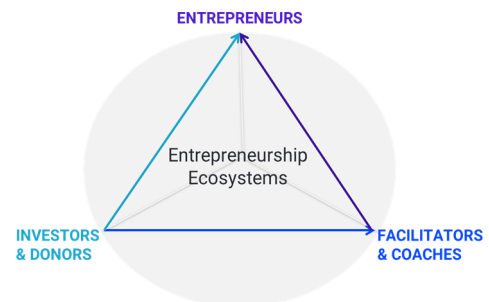

What people needed around the world was asset-based development as the foundation for sustainable solutions in local communities. That even in the poorest places, the greatest need is a good job. Good jobs are what transform communities and change lives. Entrepreneurs building viable, profitable, sustainable, and scalable companies are the engine that's needed to accelerate job creation.

We exist to unlock people's unique gifts to solve the problems of the world.

More businesses will be started in the next 20 years than all of history combined. With 100M new startups founded annually, there are also 100M failing every year. It's imperative that entrepreneurs have access to proven frameworks, resources, and support that greatly improves the odds of success.

We equip and connect entrepreneurs, mentors, and investors across local ecosystems.

We've sought out best-in-class, proven methodologies and frameworks that support entrepreneurs at every stage of the journey, from ideation, to launch, growth, scaling, and exit.

Solutions include:

- **Courses** – We have a suite of live and online courses, MITx level Bootcamp, and Virtual Accelerators for immediate real-world application
- **Coaching** – We qualify facilitators and certify coaches in our curriculum to be able to expand reach and accelerate growth
- **Capital** – We provide access to capital for launch, growth, and scaling
- **Conferences** – We bring together key business leaders, investors, mentors, and entrepreneurs in annual LIFE hosted conferences
- **Community** – We help to launch and develop local entrepreneurship ecosystems

About Michael McCausland, CEO & FOUNDER OF LIFE

Michael McCausland is a serial entrepreneur with decades of experience in organizational consulting and launching and growing both for-profit and non-profit ventures. His passion is to help unlock the human potential, focus the vision, and build sustainable businesses.
