

Entrepreneurship Training Courses

Best-in-Class, Live & Online

Entrepreneurship is HARD. Many entrepreneurs will attempt to launch or scale their business by trial and error, reading books, and listening to stories by other entrepreneurs. Most will not survive. Entrepreneurs need to be equipped with proven methodologies that greatly improve their odds of success by covering all aspects of entrepreneurship, from ideation to launch, growth, scaling, and exit.

Skills are needed for every stage of the entrepreneurship journey.

LIFE provides access to best-in-class curriculum through live, online, and in-house training courses.

Identity Driven Entrepreneurship – Who are you? What are your assets and what type of business should you start? What type of business and culture aligns with your identity?

Discipline Entrepreneurship – The MIT systematic approach based on “*Disciplined Entrepreneurship*” by MIT professor Bill Aulet. Determine if a business is viable, sustainable, and profitable before spending time and money.

Virtual Accelerators

Master practical application through a LIFE course-specific online accelerator. Small group cohorts are guided by LIFE Certified Coaches in a 6-8 week intensive experience. The first 8-week Disciplined Entrepreneurship Virtual Accelerator cohort will start June 25th, contact info@lifestartups.com for more information.

5-Day Bootcamp

The LIFE Entrepreneurship Bootcamp (LEB) is the closest experience to a real-life startup! Attendees partner to form teams with complimentary skillsets. Instruction is given during the day, and support from mentors at night, as teams prep for end-of-week pitches to real investors in a fast-paced, high-pressure environment. Next bootcamp July 2019 in Erbil, Iraq. Women’s Bootcamp launching December 2019 in Denver, Colorado.
